RICHMOND'S GREETING TO THE EDITORS. Richmond is happy to entertain the members of the National Editorial Association, and proud to show them her industrial, commercial and financial in-

churches, and her homes. She is proud of her history, proud to have been the Capital of the Confederacy, proud to be the Capital of Virginia, but Richnot satisfied to rest upon her honors and her prestige. She is a live, throbbing, nervous city, and in this respect claims to be somewhat unique, as State capitals are not usually renewned for anything else. Richmond is the largest city in Virginia, and ranks with the largest cities in the South. She also ranks with the most important industrial, commercial and financial centres of the South. Her progress during the decade from 1995 to 1905 is indicated in the following statistical statements:

Manufactures for 1905, \$68,201,854; 1895, \$32,026,000; increase, 113 per tt. The average of increase for the ole country was only forty-five per

The record for 1906 shows a marked advance over that of 1905. For example, bank clearings in 1906 were \$303,-

437,210 against \$259,998,233 in 1905. The annual sales of manufactured products in 1996 amounted to \$77,432,-

to \$61,524,275, against \$55,082,971 in And so on throughout the list,

Richmond has recently enlarged her borders, adding 3,000 acres to her terincreasing her population by from 15,000 to 18,000, and adding to her realty values property worth about \$4,060,000. The money is now in hand

She has also fitted up a commodious auditorium building, large enough to accommodate great conventions, and claims a right to be ranked among the convention cities of the country. Her recent entertainment of the Southern Baptist Convention, and of the United Confederate Veterans has demonstrated her ability to provide adequate facilities and comforts for any organization that may come here for its annual meeting. Richmond hopes some day to have the pleasure and honor of entertaining the National Editorial Associa-

We recall these achievements in va Richmond is true to her sacred memo ous and progressive city of the Union. Few cities in the Union have a bet-

After all the delay and the trouble experienced in securing a jury for the crime in Idaho, the hearing may suddealy terminate any day by the illness thing has hannened not infraquently before, especially in trials of similar importance and magnitude, when the examination of witnesses dragged on indefinitely. Under the law twelve men must hear the cyldence and decide as to the guilt or innocence of the ac-The suggestion has often been made that it would be a wiser plan to have a thirteenth, or substitute juror twelve, but without the right to expres in opinion unless he is instructed by the court to serve in the absence of one of the twelve who had to be ex cused. How the law is to be changed so that this plan may become opera tive is left to the legislative function of government, but there is undoubted wisdom in the suggestion by outsiders that the revised system would be beneficial, without prejudice to the rights of the prosecution or the defense

The Haywood jury is composed of men who have been accustomed to out loor life. Confinement, a change of surroundings, different quarters food, and the mental strain which is constantly upon them, point the way o a nervous collapse which would ender them unfit for service of so grave a nature. Meanwhile, practicaly every citizen from the district i which a new jury must be drawn has formed an opinion by reading the newspapers, to say nothing of the cost in dollars and cents. Sooner or later we must reduce our entire court system to
